The authors present a new surgical technique for the removal of columnar-lined metaplastic breasts containing multiple small ductal inclusions. The nipple/areola complex is removed by dissection and excision with the aid of self-retaining retractors. The technique is indicated for the treatment of columnar-lined metaplastic breasts (bilateral or unilateral) containing small ductal inclusions. The lateral submammary skin is preserved during dissection. The technique is effective and provides better cosmetic results than the conventional mastectomy for mammary inclusions. To our knowledge, this technique is the first nipple/areola complex removal procedure reported for the treatment of columnar-lined metaplastic breasts. Cross-cultural adaptation and reliability of the Italian version of the Australian/Canadian Integrated Cancer Index (AUSCAN): a measure of cancer pain and related symptoms. The aims of this study were to complete the cross-cultural adaptation of the AUSCAN for the Italian language and to evaluate its reliability and construct validity. All components of the AUSCAN were translated and culturally adapted from the original English version. A group of patients with cancer (n = 102) and a group of healthy volunteers (n = 56) completed the questionnaire. Responses were made on an 11-point numerical rating scale. The Italian version of the AUSCAN had high internal consistency and convergent validity. Cut-off scores of 50 and 54 were obtained when we used the distribution of AUSCAN scores in the cancer group and in the healthy volunteer group, respectively. Therefore, these results support the use of these cut-off scores in patients with cancer.Q: Create Alert Dialog, Alerts with listview inside,Java hey I need to create an Alert Dialog, when i pressed on a button, and shows the stuff like this : public void onCreate(Bundle savedInstanceState) { super.onCreate(savedInstanceState); setContentView(R.layout.main); textView = (TextView) findViewById(R.id.textView); textView2 = (TextView) findViewById(R.id.textView2); }
